## Unit 3 VERBS

### Lesson 20: Progressive Forms of Verbs (pp. 92–95)

#### Remember

The present, past, and future verb tenses each have a **progressive form**. The progressive form shows that an action is ongoing. To form the **present progressive**, use the helping verb *am, is, or are* with the *-ing* form of the main verb. To form the **past progressive**, use the helping verb *was or were* with the *-ing* form of the main verb. To form the **future progressive**, use the helping verb *will be* with the *-ing* form of the main verb.

Read each sentence. The verb in parentheses needs to be changed to its progressive form. Choose a helping verb from the box. Then write the correct present, past, or future progressive form of the verb in parentheses on the line.

am

is

are

was

were

will be
